## FloMeter Spec Sheet

- **Detect “hidden” Leaks**  
The FloMeter can alert a user to potential leaks even if a sensor hasn't gone off
- **Water Conservation**  
Tracking water usage through ionleaks.com allows for adjustments in water usage
- **Eliminate Utilities Abuse**  
Track individual tenants water usage and use the TickerValve's restricted flow capabilities to eliminate misuse
- **Generate Revenue**  
Property owners can bill monthly water usage for each tenant  
or  
Apply fines for overages in monthly water allocation
- **Monitor, Track, and Bill**  
ionleaks.com compiles tenants usage data into a convenient data document that is practical to export
